APPENDIX 3: Media and clothing in IKF Events

GENERAL

The IKF is keen to increase korfball awareness to the outside world or even more explicit; outside our global korfball community. We want to attract more and more people to our sport.

The media are a major distributor of our korfball content. Our media are: written media like newspapers and magazines, radio, Tv, (live) web casting and all social media.

Under all circumstances the IKF as owner of the IKF events and the event content follows the rules of the media.

We try to realise that korfball must look good and professional under all aspects and under various circumstances; big screens (Tv), smaller screens (Tv, Pc, laptop) and small screens (Tablets, smart phones).

This delivers restrictions to our recordings. We want to minimize the risk media will refuse to use our recordings for their distribution channels as a consequence of too equal clothing of the two teams.

TV AND (LIVE) WEB CASTING

We are aware our sport needs Tv and web casting for a broader distribution of IKF events within and outside the korfball community.

In the market of sports and distribution of content we must strive to have a higher ranked position. We evade points, like equal clothing, that might harm our potential high rank position. We will do our utmost to reach our goal.

Since 2012 we work successfully with web casting thru our own web casting team. We record all matches of the major IKF events and distribute these via worldkorfball.sport, the ikfchannel on You Tube, the IWGA channel and the Olympic channel.

In the years since 2012 we improved the quality of the recordings, the screens we show and the commentary to bring high quality to the end users all over the world.

Since 2015 the national broadcasters of Belgium, The Netherlands, Germany, Suriname acknowledge our quality improvements; in recordings and colours, obey to the local media rules, pay attention to enough differences in shirt colours. For that reason we remain strict in our shirt colour strategy and do not allow colours that are closely related.

The national broadcasters did use (parts of) our web casting recordings for their local programs.

We (IKF) have been asked by them to do our utmost to deliver high quality:

1. We record all matches in HD quality
2. We record all matches with two or more cameras and listen careful to their comments re. camera positions and shots taken
3. From the teams we ask clothing, shirts and shorts, that shows in the best way TEAM A and TEAM B
4. We ask the teams since many years to bring at least two sets of shirts with different colours to an IKF event with fixed numbers per player in the front and on the back. In the team managers meeting we mention the use of the shirts might be point of discussion between teams and with the jury. The decision of the jury is final and without appeal following the rules mentioned in the IKF Competition Regulations.
5. We have no influence on the colours of the shorts as yet

6. The jury is aware of the media requirements re. shirts
7. One of the other aspects is: be aware of colour-blindness amongst our viewers
8. In that way; where shorts are more or less equal, shirts must make all the difference. From that point of view we do not approve colours of shirts that might look the same or are closely related at any time.
